WORRY

Over Sentence Imposed Twenty Years Ago Breaks Down Judge's Health.

CHICAGO, Aug. 7.—Friends of Judge Henry Freelan, who today sent his resignation from the superior court of Cook county to Governor Dunne, said that ill health, which was given as the immediate reason for the resignation, came as the result of worry over a sentence imposed on two men twenty years ago.

Two years after Judge Freelan was elected to the superior court, Charles Kursh and Thomas McNally were convicted before him for murder. The judge sentenced them to life imprisonment according to the jury's verdict. It was said that Judge Freelan six years later became convinced the men were victims of a "frame-up" but it was only a few weeks ago that he obtained their release on parole.

LOVE QUESTION

Brings Out Differences of Opinion at the Race Betterment Conference.

OAKLAND, Calif., Aug. 7.—Eugenics was debated at the closing session here today of the national conference on race betterment.

"Romeo loved his Juliet, eugenics or no eugenics, and it's the same with Pat and Biddy today. I hope we'll never see the day when two persons who love each other cannot marry," said Dr. G. F. Ballard of Havelock, Neb.

He was answered by Prof. Irving Fisher, of Yale University, who thought that persons physically or mentally defective should not be allowed to marry even if in love. He added:

"Society thoroughly imbued with eugenic ideals would register more real love marriages than it would without them."

The conference accepted Prof. Fisher's view.
